

## Master will be at GlassBuild America, the glass window and door Expo in Las Vegas from 9<sup>th</sup> to 11<sup>th</sup> September

First participation for **Master** in an American trade show: in September, the company will be at the **GlassBuild America**, the three days gathering place for the entire glass doors and windows industries in North America. In its 11<sup>th</sup> year, the event is organized by the National Glass Association (**NGA**), in partnership with the American Architectural Manufacturers Association (**AAMA**) and the Glass Association of North America (**GANA**), and other important windows and doors manufacturers associations in the USA. "At the next Glass Build in **Las Vegas from 9<sup>th</sup> to 11<sup>th</sup> September**, we will show our more innovative products in order to represent our way to produce "**Made in Italy**" and "**green**" as attested by several **environmental sustainability** certifications and acknowledgment received on our production" as said **Albert Ryzkhou**, Master Export Manager. "It's our first official exhibition in a trade fair in the USA, as we are studying this market very carefully since we have developed technical and certified solutions upon the construction requirements of this area".
